01/22/25

Scripture: 1 Peter 2

When we read this piece of Scripture, we need to take it seriously. We are God's people and are part of His Holy nation as Peter describes it. I like the ending of Rev. Dunlap's devotional where we may be the only Bible some people around us ever sees. Are we really living out Jesus in our dying world?

Does it make any difference how we live? You may say that's a crazy question ... of course it makes a difference how we live. But it's not a crazy question because in our day we are told it doesn't matter. In our world moral issues are totally blurred. We are told there is no right and wrong. It is whatever you think is right or wrong. Whatever we think?

In fact, we are being told that our personal lives are a purely private affair. My personal life is my own business and no one else's. My personal life has nothing to do with me making a difference for good.

However, that is not how the Word of God sees it. From God's standpoint the way we live makes all the difference in the world. Being a Christian, a born-again believer makes a great difference to us and everyone else.

An old saying says; we are the only Bible the world sees. What are they seeing in our lives?
